Fine Arts Brass has been delighting audiences around the world since 1980 in sixty countries and over 2500 concerts.

The variety of music ranges from the poise and grace of the English Courts to the strange psychedelic world of Frank Zappa. FAB have commissioned more than sixty works from contemporary composers including Nyman, Torke, Woolrich & Arnold.

They have appeared at every major UK music festival, performed with choirs and orchestras, made over 30 CD recordings yet remain firmly committed to the importance of working with young people in their various educational projects.

From the Berlin Philharmonie to the spice markets of Zanzibar, from palaces and cathedrals to church halls and schools, FAB has led the way in world-class brass music.

These rare accomplishments have earned them the deserved accolade of Europe's most successful brass quintet.
